“The NEW pre-coated non-stick alternative”

About Cooper Coated Coil

The first company in the world to apply non-stick coatings to metal strip by the coil coating process.

Cooper Coated Coil have remained the leaders in non-stick coil coating technology for over 35 years.

Constant innovation with our partners means that Cooper Coated Coil continue to deliver new product and technology for the baking industry.

Cooper Coated Coil now bring a coating transformation to the industrial baking sector.

Glide-X Pro technology has been developed to deliver outstanding non-stick performance at highly competitive prices.

Glide-X Pro is different...

- ✓ Coil Coating Technology
- ✓ Homogenous non-stick surface
- ✓ Multi-layered bonded coating
- ✓ Excellent cost per cycle ratio
- ✓ Less cleaning effort
- ✓ Cost effective
- ✓ Environmentally efficient
- ✓ Ideal for shapes and bespoke bakeware
- ✓ Baking glides off every time

Über Cooper Coated Coil

Cooper Coated Coil war die erste Firma weltweit, die im Coil Coating Verfahren Antihaft-Beschichtungen auf Metallbänder aufgetragen hat, und ist seit über 35 Jahren der führende Name der Antihaft-Coil Coating-Industrie.

Durch kontinuierliche Innovation in Zusammenarbeit mit unseren Partnern bietet Cooper Coated Coil dem Markt ständig neue Produkte und neue Entwicklungen.

Nun bringt Cooper Coated Coil der Backbranche eine neue Beschichtungstechnologie.

Die Glide-X Pro Technologie bietet eine herausragende Backleistung zu äußerst wettbewerbsfähigen Preisen.

Glide-X Pro is anders...

- ✓ Coil Coating Technologie
- ✓ Homogene Antihaft-Oberfläche
- ✓ Vielschichtige, gebondete Beschichtung
- ✓ Exzellentes Kosten-pro-Einsatz Verhältnis
- ✓ Geringerer Reinigungsaufwand
- ✓ Kosteneffektiv
- ✓ Ökologisch effizient
- ✓ Ideal für spezielle Formen
- ✓ Backwaren gleiten jedes Mal vom Blech
